- (C) who, without a degree money or logistic support succeeded
- (D) who, succeeded without a degree money or logistic support
- Directions—(Q. 33–40) Read the given passage and answer the questions.**
- According to Inter Press Service, “On global scale, women cultivate more than half of all the food that is grown. In sub-Saharan Africa and the Caribbean, they produce up to 80 per cent of basic foodstuffs. In Asia, they account for around 50 per cent of food production. In Latin America, they are mainly engaged in subsistence farming, horticulture, poultry and raising small livestock.”
- Yet women often get little recognition for that. In fact, many go unpaid. It is very difficult for these women to get the financial resources required to buy equipment etc., as many societies still do not accept, or realize, that there is a change in the “traditional” roles.
- UNICEF’s 2007 report on state of the world’s children focused on the discrimination and disempowerment women face throughout their lives and how that impacts children’s lives. In regards to work and pay, they noted the following.
- Reasons for such disparity include the fact that women are generally underpaid and because they often perform low-status jobs, compared to men. UNICEF notes that the data isn’t always perfect, and that generalizations such as the above can hide wider fluctuations. “Brazil, for example,

women under the age of 25 earn a higher average hourly wage than their male counterparts.”

UNICEF’s main summary of equality in employment included the following points :

For many women, un-paid work in and for the household takes up the majority of their working hours, with much less time spent in remunerative employment. Even when they participate in the labour market for paid employment, women still undertake the majority of the housework.

When women work outside the household, they earn, on average, far less than men. They are also more likely to work in more precarious forms of employment with low earnings, little financial security and few or no social benefits.

Women not only earn less than men, but also tend to own fewer assets. Smaller salaries and less control over household income constrain their ability to accumulate capital.

33. Women’s work is often—
 (A) unnoticed
 (B) unrecognized and unpaid
 (C) appreciated
 (D) paid
34. In sub Saharan and Caribbean region women produced around food.
 (A) 50% (B) 80%
 (C) 70% (D) 60%

 (A) $72/15$ (B) $83/15$
 (C) $9/8$ (D) $11/83$
48. How much chicory at ₹ 4 a kg should be added to 15 kg of coffee at ₹ 10 a kg so that the mixture be worth ₹ 6.50 per kg ?
 (A) 15 kg (B) 18 kg
 (C) 12 kg (D) 21 kg
49. A mixture of a herbal liquid and a base oil contains 45% herbal liquid by weight. Twenty five grams of base oil is added to such 200 grams of mixture. What % of herbal liquid by weight is there in the new mixture ?
 (A) 25 (B) 60
 (C) 80 (D) 40
50. A cube of 1 cc volume will have surface area equal to—
 (A) $1/12$ sq cm (B) $1/24$ sq cm
 (C) 6 sq cm (D) $1/36$ sq cm

Directions—(Q. 51–55) Production of Fertilizers by six major production units of India during Apr-Aug (figures in Million Tonnes).

Month	Production Unit					
	I	II	III	IV	V	VI
April	310	180	169	137	140	120
May	318	179	177	162	140	122
June	320	160	188	173	135	130
July	326	167	187	180	146	130
August	327	150	185	178	145	128

51. In which unit was there a steady increase in production over the months ?
 (A) I (B) II
 (C) III (D) V
52. In the month of June, how many of the given units have a share of more than 25% of the total production of fertilizers ?
 (A) Two (B) Three
 (C) Four (D) None of these
53. In the month of July, the production of which unit shows the greatest percentage increase over the previous month—
 (A) I (B) II
 (C) IV (D) V
54. In which month does the unit No II have a contribution of approximately 15% in the total fertilizer production ?
 (A) April (B) May
 (C) June (D) None of these
55. What was the approximate % increase in fertilizer productions in Unit V in August, over that in May ?
 (A) 4.5% (B) 3.5%
 (C) 2.6% (D) 36%

Directions—(Q. 56–60) Study the graph carefully and answer the questions given below it.

Failure Rates of Different Electronic Components

56. Which of the following components has a failure rate 25% more than that of signal device ?
 (A) Picture Tubes
 (B) Capacitors
 (C) Integrated Circuits
 (D) Printed Circuit
57. The failure rate of printed circuit boards is what per cent of that of capacitor ?
 (A) 61 (B) 165
 (C) 65 (D) 154
