Contents

Preface .................................................................................................................................................. xiii

1. Introduction to Business Processes ......................................................................................... 1–7
   Definition of Business Process 1
   Dimensions of Business Process 1
   Common Business Processes in an Organization 2
   Definition of Business Process Redesign 2
   Definitions of Various Management-Related Terms 3
      Organizational Change 3
      Project 3
      Business Process Reengineering Project 3
      Project Management 3
      Process Orientation of Business 3
      Business Processes 4
      Teams 4
   Overview of Business Process Reengineering 5
   Business Process Improvement 6
   Review Questions 7

2. Introduction to BPR ................................................................................................................. 8–21
   History of BPR 8
   Basics of BPR 9
   Definition of Business Process Reengineering (BPR) 10
      Informal Definition of BPR 10
      Formal Definition of BPR 11
   Emergence of BPR 12
   The Need for Reengineering 13
   Benefits of BPR 14
   Role of Leader and Manager 15

BPR Model 40
BPR Methodology Selection Guidelines 41
Recommended Approach 42
Implementation of Business Process Reengineering 42
Common Steps to be Taken for BPR Implementation 45
  Phase 1: Beginning Organizational Change 45
  Phase 2: Building Reengineering Organization 46
  Phase 3: Identifying BPR Opportunities 46
  Phase 4: Understanding Existing Processes 48
  Phase 5: Reengineering Processes 49
  Phase 6: Blueprinting New Business Systems 50
  Phase 7: Performing Transformations 51
Different Business Process Reengineering Methodologies 53
  Hammer/Champy Methodology 53
  Davenport Methodology 54
  Manganelli/Klein Methodology 55
  Kodak Methodology 55
Comparison of Various Business Process Reengineering Methodologies 56
Consolidated BPR Implementation Methodology 57
  Activity 1: Preparing for Reengineering 57
  Activity 2: Mapping and Analyzing As-Is Process 58
  Activity 3: Design To-Be Process 59
  Activity 4: Implement Reengineered Process 59
  Activity 5: Improve Process Continuously 60
Steps of Process Reengineering 60
Organizational Redesign Using BPR 60
Impact of BPR on Organizational Performance 63
Performance Measures of BPR 63
Reengineering Recommendations 64
Threads of BPR in Various Phases 65
  Initiation 66
  Acquisition 66
  Implementation 66
  Sustainment and Continuous Improvement 66
Review Questions 66

6. Success Factors of BPR .......................................................... 68–74

Reengineering Success Factors 68
  Top Management Sponsorship 68
  Executive Leadership 69
  Strategic Alignment 69
  Business Case for Change 69
  Proven Methodology 70
  Ten Steps to BPR Implementation 70
  Change Management 70
  Line Ownership 71
  Process Ownership 71

Introduction 123
Evolution of ERP 125
Need for ERP 125
  Need to Change Business Methods 126
  Cost 126
  Package Suitability 127
  Capacity of Computer Systems to Handle ERP 127
Major Characteristics of ERP 128
  Three Approaches to ERP 128
Suppliers of ERP 129
  Prominent ERP Vendors 129
Features of ERP 131
Components of ERP 132
BPR and ERP 132
Selection of ERP 133
  Steps in Selecting the Right ERP Package 133
Implementation of ERP 134
Common Approaches to Install ERP 135
Eight Steps for Success of Implementation 136
ERP Implementation Traps 137
Observations for Successful ERP Implementation 141
Plan to Succeed in ERP Implementation 145
Implementing ERP System 150
Easier ERP Implementation 152
Benefits of ERP 155
Payoffs of ERP 155
Reasons for Implementing ERP 155
ERP Adoption 156
Integration Takes Hold 156
Motivations for ERP Systems 156
Extending ERP 157
Link Your Supply Chain 157
Oracle ERP 158
Various Oracle Modules 158
Oracle Financials 159
SAP 159
SAP R/3 Functional Modules 161
SAP R/3 Approach to Production Planning 163
ABAP 164
SAP Enterprise System 164
ROI Calculation In ERP Implementation 165
Qualitative and Quantitative Aspects 166
Key Performance Indicators 167
Reports Created By ERP Packages 168
Bill of Material 168
Sales Forecasting 169
Sales and Operations Planning 169
Demand Management 169
Internet-Based Enterprise Resource Planning Solutions 170
Internet Forcing Companies to Re-evaluate Their ERP Systems 171
Entry into e-business 171
E-business and ERP Taken Together 171
Next Wave 172
Next Generation—ERP is Web Enabled for E-business 172
Questions and Answers 174
How can ERP Help to Improve a Company’s Business Performance? 174
How Long does an ERP Project Take? 175
What Things will ERP Correct in My Business? 176
Will ERP Fit into the Ways I do Business? 177
What does ERP Actually Cost? 177
When will I Get Returns from ERP—and How much will it be? 178
What are the Hidden Costs of ERP? 178
Why do ERP Projects Fail Frequently? 180
How do I Configure ERP Software? 181
How do Companies Organize their ERP Projects? 181
How does ERP Fit with e-commerce? 182
Case Study: Kirloskar Oil Engines Limited Implements Oracle ERP Solutions 183
Review Questions 184

11. Functional Information System ........................................ 185–189

Introduction 185
Marketing and Sales 185
Production and Materials Management 187
Accounting and Finance 188
Human Resource Management 188
Review Questions 189

12. Software Reengineering ..................................................... 190–213

Introduction 190
Definition of Reengineering 190
Reengineering Objectives 191
Reengineering Concepts 192
Software Development Levels of Abstraction 192
General Model for Software Reengineering 192
Reverse Engineering 193
Forward Engineering 195
Reengineering Approaches 195
Big Bang Approach 195
Incremental Approach 196
Evolutionary Approach 197
Reengineering Phases and Tasks 197
Reengineering Team Formation 198
Project Feasibility Analysis 198
Analysis and Planning 198
Reengineering Implementation 199
Testing and Transition 199
Reengineering Risks 200
Hybrid Reengineering 201
Hybrid Reengineering Tracks 202
Hybrid Reengineering Approach 206
Hybrid Reengineering Risks 207
Hybrid Reengineering Benefits 207
Hybrid Reengineering Metrics 207
Reengineering Industry Applications 208
Results 208
Industry Lessons Learned 212
Conclusions 212
Review Questions 213

13. Virtual Manufacturing .................................................... 214–232

Introduction 214
Virtual Lab for Product Creation 214
