Preface to Solved Scanner _____

The Advanced Tax Laws and Practice paper is very relevant for every CS student. It contains within it, ambit topics that every CS gets to use somewhere or the other on becoming a professional.

The Scanner was, and remains a valuable tool in the repertoire of every CS student, helping in gaining a better understanding of the subjects at hand. We are very happy to be given the opportunity of preparing a solved version of the Scanner for this subject. The book has been made for the purpose of supplying a basis for answering questions of the type normally asked in the question papers. Moreover, it seeks to provide a direction to the way of answering the questions. With the way the question papers are evolving and changing, it helps to have a firm foundation in all the subjects.

Please contribute any suggestions that you feel can help us in making it better.

Best of Luck
